ABOUT US

Blaze Cookware has manufactured kitchenware since 1992. From our own works at Raj Industrial Park, Haripar, Rajkot, we make tri-ply, non-stick and pressure cookware for leading kitchenware brands in India and abroad.

Our tri-ply is clad 304 stainless steel, aluminium and 430 stainless steel for fast, even heat from base to rim. Everything from pressing to final polish happens under one roof, and every piece is individually tested before it leaves the factory.
